

One-Day Workshop at the University of Bergamo Reimagining Accounting for Inclusive Capitalism 7 July 2026 | Department of Management - Via dei Caniana 2, Bergamo | University of Bergamo

Capitalism remains the dominant framework for organising global economic life, yet its promises of prosperity and inclusion are under increasing scrutiny. This workshop supports the forthcoming AAAJ Special Issue on *Reimagining Accounting for Inclusive Capitalism* and invites scholars to explore how accounting can contribute to reshaping capitalism toward inclusivity, sustainability and social justice.

The workshop is hosted by the University of Bergamo and sponsored by the Juncture (the University of Auckland's Research Centre on Inclusive Capitalism). The workshop is free of charge for participants.

Attendance at the workshop is not a prerequisite for submission to the Special Issue. Also, although accepted abstracts will be presented and discussed at the workshop, there is no guarantee of the subsequent publication of associated manuscripts.

JOIN US IN BERGAMO TO RETHINK CAPITALISM AND ACCOUNTING FOR A MORE INCLUSIVE FUTURE!
